February 7, 2017

Brothers and Sisters,

As you are aware we received a decision on the OM grievance (CROA No. 4531). Arbitrator Flynn's decision dated January 31, 2017.

We know that OM claims are still being denied at Vaughan. The Union has contacted Labour Relations and requested that the auditor be made aware of the award. We ask that you continue to submit OM (Not IP) claims at Vaughan.

We understand that many of you were submitting IP claims due to denied abeyance code. We have requested that the company include all IP claims in the search for claims since October 2015. The General Chairman has informed us that we will know more about this process soon. When we have this information we will share it with you. For now, you are advised to retain your records for future use.

Your continued patience as we attempt resolve this is appreciated.

Regards,

Greg Banton
Local Chairman - CTY Road
